DATASHEET

DSub Plug, IDC contacts flat version,E-DFF 09 LPIII/Z

General data

The D-Sub connector 9 pin from EFB-Elektronik is designed for use with a flat cable and as a version with insulation displacement. With a 180° connection angle and male contact design, it is suitable for compact, standard-compliant connectors in technical applications.

- 9-pin D-Sub connector in flat design
- 180° design for connection with flat cable
- Male contact design for a suitable plug connection

Due to the temperature range of -25 to 85 °C, the connector is intended for demanding environments. The EDSF 09 LPIII/Z version supports a stable signal connection when a precise and permanently resilient interface is required in industrial or technical applications.
