DATASHEET

E-DH09 Cover metallised

General data

The D-Sub hood E-DH metallized from EFB-Elektronik is designed as a plastic hood for 9-pin connectors. With a 180° cable outlet and straight cable entry, it is suitable for compact and standard-compliant cable connections in a wide range of applications.

- Plastic hood in metallized/silver design
- Suitable for 9-pin D-Sub connectors
- Cable outlet 180° with straight cable entry

The material plastic supports a robust and at the same time practical protection solution for technical applications where a precisely fitting cover for D-Sub interfaces is required. The maximum cable diameter of 6.0 mm takes into account common cables and facilitates integration into existing systems. The temperature range of -25 to 70 °C covers typical operating conditions.

Technical details
- Type: E-DH 09
- Material: Plastic
- Colour: metallised/silver
- Suitable for Number of Poles: 9
- Cable entry: straight
- Temperature range: -25 – 70 °C
- Max. cable diameter: 6.0 mm
- Brand: EFB-Elektronik

Technical properties

Locking mechanism	Screw
Material	Plastic
Separable	True

DATASHEET

E-DH09 Cover metallised

Temperature range	-25 – 70 °C
Two piece	True

Available variants

ArtNr.	Bezeichnung	Cable Entry	Cable diameter	Colour	Suitable for number of poles	Type
29414.1	E-DH 25 Cover metallised	Straight	8.0 mm	metalized/silver	25	E-DH 25
29417.1	E-DH09 Cover metallised	Straight	6.0 mm	metalized/silver	9	E-DH 09
29522.1	E-DH15 Cover metallised	Straight	8.0 mm	metalized/silver	15	E-DH 15

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
