DATASHEET

Full Metal Cover 35°, E-MHDM35 37-K

General data

The D-Sub full metal hood silver E-MHDM35 37-K from EFB-Elektronik is designed as a full metal hood made of die-cast zinc for 37-pin connectors. With a 35° cable outlet and angled cable entry, it is suitable for compact cable connections in a wide range of applications.

- Full metal hood in silver finish
- Suitable for 37-pin D-Sub connectors
- Cable outlet 35° with angled cable entry

The material zinc die casting supports a robust and at the same time practical protection solution for technical applications where a precise cover for D-Sub interfaces is required. The maximum cable diameter of 13 mm takes into account common cables and facilitates integration into existing systems. The temperature range of -40 – 120 °C extends the range of application for demanding environmental conditions.
