DATASHEET

Keystone Snap-In Adapter RJ45 STP, Cat.6

General data

The Keystone panel-mount adapter RJ45 STP, Cat.6 from EFB-Elektronik is designed as a shielded Keystone panel-mount adapter RJ45 in a metal housing. With female/female version, 2x RJ45 and straight design, it is suitable for compact integration in keystone applications.

• female/female with 2x RJ45 – Enables end-to-end RJ45 connection and supports space-saving integration into keystone applications.
• Category 6 shielded design – Reduces external interference and supports stable signal routing in structured networks.
• Straight design for keystone mounting – Facilitates installation and ensures a clean implementation in matching mounts.

The shielded version and Category 6 are designed for controlled signal routing in network installations. The combination of female/female, two RJ45 interfaces and straight design supports a compact connection solution. The metal housing complements the robust design for keystone mounting.

Technical details
• Brand: EFB-Elektronik
• Configuration: female/female
• Connector type: 2x RJ45
• Category: 6

DATASHEET

Keystone Snap-In Adapter RJ45 STP, Cat.6

- Mounting: Keystone
- Shielded: Yes
- Form: straight

Technical properties	
Assembly	Keystone
Category	6
Construction type	straight
Mating cycles	≥ 750
Model	jack/jack
Temperature Range (Operation)	0 – 70 °C
Type of connector	2x RJ45

Available variants

ArtNr.	Bezeichnung	screened
37486.1	Keystone Snap-In Adapter RJ45 STP, Cat.6	True

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
