DATASHEET

Modular-Adapter RJ45 UTP, Cat.6

General data

The RJ45 UTP, Cat.6 modular adapter from EFB-Elektronik is designed as an unshielded RJ45 modular adapter in a plastic housing. With a female/female version, 2x RJ45 and a straight design, it is suitable for use in desktop environments and for compact integration in network applications.

- female/female with 2x RJ45 – Enables an end-to-end RJ45 connection in a space-saving desktop solution.
- Category 6 Unshielded Design – Supports standard-compliant signal routing for classic network connections.
- Straight design for desktop mounting – Facilitates installation and ensures clean integration into matching shots.

The unshielded UTP version does not require shielding and is therefore intended for applications in which a simple and compact connection with two RJ45 interfaces is sufficient. The classification in Category 6 and the straight design support integration into desktop-based network infrastructures. As a modular adapter from EFB-Elektronik, the device fits into corresponding RJ45 installations.

Technical details
- Brand: EFB-Elektronik
- Configuration: female/female
- Connector type: 2x RJ45
- Category: 6
- Mounting: Desktop
- Form: straight

DATASHEET

Modular-Adapter RJ45 UTP, Cat.6

Technical properties	
Assembly	Desktop
Category	6
Construction type	straight
Mating cycles	≥ 750
Model	jack/jack
Temperature Range (Operation)	0 – 70 °C
Type of connector	2x RJ45

Available variants

ArtNr.	Bezeichnung	screened
37487.1	Modular-Adapter RJ45 UTP, Cat.6	False

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
