DATASHEET

Keystone installation adapter RJ45 UTP Cat.6

General data

The Keystone panel-mount adapter RJ45 UTP, Cat.6 from EFB-Elektronik is designed as an unshielded Keystone panel-mount adapter RJ45 for compact integration in keystone applications. With female/female version, 2x RJ45 and straight design, it is suitable for standard-compliant and space-saving network installation.

- female/female with 2x RJ45 – Enables an end-to-end RJ45 connection in a space-saving keystone mounting solution.
- Category 6 Unshielded – Supports structured network integration in applications with Cat.6 requirements.
- Straight keystone mounting design – Facilitates installation and ensures clean integration into matching mounts.

The unshielded design is designed for easy keystone mounting. In combination with Category 6 and the female/female arrangement with two RJ45 interfaces, a compact component for structured network installations is created. The straight design supports clean placement in suitable receptacles.

Technical details
- Brand: EFB-Elektronik
- Configuration: female/female
- Connector type: 2x RJ45
- Category: 6
- Mounting: Keystone
- Form: straight

DATASHEET

Keystone installation adapter RJ45 UTP Cat.6

Technical properties	
Assembly	Keystone
Category	6
Construction type	straight
Mating cycles	≥ 750
Model	jack/jack
Temperature Range (Operation)	0 – 70 °C
Type of connector	2x RJ45

Available variants

ArtNr.	Bezeichnung	screened
37488.2	Keystone installation adapter RJ45 UTP Cat.6	False

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
