DATASHEET

Grommet blue TM21

General data

The blue kink protection grommet for Hirose RJ45 connector TM21 from HIROSE is designed for RJ connectors and supports clean and stable cable routing at the transition to the connector. The version is intended for round cables and is designed for precise mechanical relief in the connector area.

• Blue anti-kink grommet for Hirose RJ45 connector TM21 – Provides a protected transition at the RJ connector and supports clean cable routing.
• Suitable for round cables with a minimum internal diameter of 6.6 mm – Allows a suitable assignment to the cable geometry and contributes to a secure fit.
• Flame retardant according to UL-94V0 – Increases material safety through a defined fire behavior.

The design is designed for practical use on RJ connectors and combines mechanical relief with a clearly defined material property. Due to its suitability for round cables and the minimum inner diameter of 6.6 mm, the kink protection grommet can be selected to match the cable configuration. The flame retardancy according to UL-94V0

DATASHEET

Grommet blue TM21

complements the profile for applications with increased safety requirements.

Technical details
- Brand: HIROSE
- Application: RJ connector
- Suitable for: Round cables
- Colour: blue
- Flame retardant: UL-94V0
- Min. inner diameter: 6.6 mm

Technical properties	
Application	RJ-plug
Flame retardant	UL-94V0
Suitable for	Round cable

Available variants

ArtNr.	Bezeichnung	Colour	Min. inner diameter
37641.1	Grommet beige TM21	beige	6.6 mm
37641.10	Grommet orange TM21	orange	6.6 mm
37641.12	Grommet light grey TM21	grey	6.6 mm
37641.4	Grommet black TM21	black	6.6 mm
37641.5	Grommet yellow TM21	yellow	6.6 mm
37641.6	Grommet red TM21	red	6.6 mm
37641.7	Grommet blue TM21	blue	6.6 mm
37641.8	Grommet green TM21	Green	6.6 mm
37641.9	Grommet white TM21	white	6.6 mm

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
