

DATASHEET

Cable Cutter

General data

The insulated cable cutter from EFB-Elektronik is designed as a side cutter with stripping function for single wires and offers a practical solution for daily cable processing.

- Single wire side cutters - Covers single wire cutting in one tool and supports flexible processing.
- Stripping function - Allows stripping directly with the same tool, simplifying the workflow.
- Insulated design with plastic cover handle - Combines the insulated design with plastic sleeves on the handle and adds a clear hand tool for the intended use.

For technical use, the tool is designed on single wires up to a maximum AWG 18. The black oxidized surface provides surface protection and the insulated design complements the practice-oriented design. The cable cutter thus bundles cutting and stripping in one side cutter.

Technical details

- Brand: EFB-Elektronik
- Variant: Side cutters
- Suitable for: Single wire
- Stripping function: Yes
- Handle cover: plastic covers
- Insulated: Yes
- Max. AWG: 18
- Surface protection: black oxidized

Technical properties

ESD tested	False
Length	127 mm
Max. AWG	18
Shape	Standard

This datasheet was created automatically on 01-11-2026 . Technical changes reserved.

DATASHEET

Cable Cutter

Suitable for	Single wire
VDE tested	False
Variant	Side cutter
With facet	True

Available variants

ArtNr.	Bezeichnung	Handle cover	Insulated Strip function		Surface treatment	Isolation protection 1000 V
39912.1	Cable Cutter	Plastic grips	True	True	black oxidized	False

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
