

DATASHEET

Fronttür für Wandgehäuse 691916TS.80, mit Scharnieren und Schloss

General data

The one-piece front door for wall enclosures in black RAL 9005 is designed as a suitable accessory for 600 mm cabinet widths. The glass version with swing handle combines visual inspection with a clear, functional front solution for 19-inch installations.

- One-piece glass door with visual function – Allows visual inspection of the built-in components without having to open the cabinet.
- 1-point latch lock with swing handle – Ensures easy operation and defined locking in daily use.
- Black version in RAL 9005 for 600 mm cabinet width – Supports a uniform appearance in standardised wall enclosures.

The technical design is designed for use as a hinged door within the 1/2-part wall enclosure cabinet series. With a width of 515 mm, a height of 723.1 mm and a depth of 22 mm, a compact front solution is created. The glass material with aluminium side elements and the IP20 protection class speak in favour of use in controlled indoor areas.
