

DATASHEET

Dust protection cap for RJ45 Connector, black, bag of 10

General data

The dust cap for RJ45 plugs from EFB-Elektronik is designed as a black dust cap made of ABS. It is suitable for RJ45 plugs and supports practical coverage in technical applications.

- Black finish – Allows for unobtrusive integration into existing installations and provides a consistent appearance.
- Suitable for RJ45 connectors – Provides a suitable protection solution for open connectors in the field of network technology.
- Material ABS – Supports a robust and at the same time practical design for daily technical use.

The material ABS stands for a resilient protection solution in the vicinity of RJ45 connectors. The temperature range from 0 to 60 °C describes the intended application frame and classifies the dust cap for typical technical environments.

Technical details

- Brand: EFB-Elektronik
- Form: Dust cap
- Suitable for: RJ45 plug
- Material: ABS
- Colour: black
- Temperature range: 0 – 60 °C

Technical properties

Material	ABS
Model	Dust cap
Operating Temperature	0 – 60 °C

Available variants

This datasheet was created automatically on 25-10-2026 . Technical changes reserved.
