DATASHEET

CableMaster PoE Wiring and PoE++ Tester

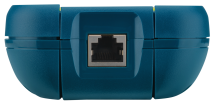

General data

A handy wiring tester featuring integrated length measurement and a tone generator. Additionally, the device detects Power over Ethernet (PoE) up to Class 8, 90 W (PoE++) and briefly applies a load to test the PoE supply.

The CableMaster PoE features a 3.5" color screen with a graphical user interface, making it extremely easy to operate and providing clear, easy-to-understand test results. Applications include testing installed cabling prior to final acceptance with a qualifier or certifier; performing one-touch wiring tests on Ethernet cables to detect opens, shorts, miswires, and split pairs; and locating ports using the tone generator and an optionally available probe, such as the Softing CP15. Furthermore, the CableMaster PoE allows for diagnostics on RJ45 ports providing PoE up to 90 W, including PoE class detection and load application on the ports under test. The device is also suitable for troubleshooting installations that utilize PoE.

DATASHEET

CableMaster PoE Wiring and PoE++ Tester

- Compact wiring and PoE++ tester
- Length measurement
- Built-in tone generator
- Color display
- Detachable remote unit

Scope of delivery: 1 CableMaster PoE with integrated remote, 1 card with QR code linking to the manual, 6 AA batteries (non-rechargeable), installed in the CableMaster PoE.

Technical properties	
Available Connector	RJ45
Dimensions	175 x 85 x 38 mm
Measured value memory	False
Net weight	400 g
Operating Temperature	-10 – 50 °C
Storage Temperature	-20 – 80 °C
Suitable for network protocol measurement	False
Type of indication	LCD

Available variants

ArtNr.	Bezeichnung	Model	Suitable for	With measuring head
CMPOE	CableMaster PoE Wiring and PoE++ Tester	Patch cable tester	Multi function	True

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
