DATASHEET

Mains adapter IEC C6 to IEC C7, Mickey Mouse plug - Euro 8 socket

General data

The IEC C6 to IEC C7 power adapter from EFB-Elektronik is designed for compact power connections and connects an IEC C6 connector to a C7 connector 180°. The black version and the polyvinyl chloride (PVC) jacket support practical use in technical applications.

- Power adapter for IEC C6 male to C7 connector 180°
- Black outer jacket color for unobtrusive integration
- 2-wire version with PVC sheath material

The design without protective conductor corresponds to a two-pole connection solution for suitable device and mains connections. The combination of IEC C6 and C7 provides a standard-compliant connection for corresponding device interfaces, while the PVC sheath material enables robust cable routing suitable for everyday use.

Technical details
- Connector 1: IEC C6 connector
- Connector 2: C7 coupling 180°
- Core Count: 2
- Outer jacket colour: black
- Sheath material: Polyvinyl chloride (PVC)
- Protective Conductor: No
- Brand: EFB-Elektronik

Technical properties

Colour outer sheath	black
Connection 1	IEC C6 plug
Connection 2	C7 plug female 180°

DATASHEET

Mains adapter IEC C6 to IEC C7, Mickey Mouse plug - Euro 8 socket

Halogen free	False
Material outer sheath	Polyvinylchlorid (PVC)
Nominal voltage	250 V
Number of cores	2
Oil resistant (acc. EN 60811-2-1)	False
Oil resistant (according to EN 60811-404)	False
Protective conductor	False
Spiralized cable	False
Type of packaging	Labeled polybag
With cord switch	False

Available variants

ArtNr.	Bezeichnung	Colour outer sheath
EB515.3	Mains adapter IEC C6 to IEC C7, Mickey Mouse plug - Euro 8 socket	black

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
