

DATASHEET

Mains adapter CEE7/7 to IEC C13 90°, earthing contact plug - IEC socket

General data

The CEE7/7 to IEC C13 90° power adapter from EFB-Elektronik is designed as a compact connection solution between earthed plug and IEC socket. The combination of straight connection 1 and angled connection 2 supports space-saving installations in technical applications with corresponding connection requirements.

- Protective plug (type F) on IEC socket
- Angled design on port 2 for compact mounting
- Black outer jacket color for unobtrusive integration

The polyvinyl chloride (PVC) sheath and the existing protective conductor form a practical design for safe use in existing systems. With three wires, the adapter is designed for typical mains connections and combines a proper design with a clear, functional design.

Technical details

- Brand: EFB-Elektronik
- Core Count: 3
- Connector 1: safety plug (type F), straight
- Connection 2: Angled IEC socket
- Outer jacket colour: black
- Sheath material: Polyvinyl chloride (PVC)
- Protective conductor available

Technical properties

Colour outer sheath	black
Connection 1	Plug with protective contact (type F), straight
Connection 2	Cold device plug angled, female

This datasheet was created automatically on 18-10-2026 . Technical changes reserved.

DATASHEET

Mains adapter CEE7/7 to IEC C13 90°, earthing contact plug - IEC socket

Halogen free	No
Material outer sheath	Polyvinylchlorid (PVC)
Nominal voltage	250 V
Number of cores	3
Oil resistant (acc. EN 60811-2-1)	False
Oil resistant (according to EN 60811-404)	False
Protective conductor	True
Spiralized cable	False
Type of packaging	Labeled polybag
With cord switch	False

Available variants

ArtNr.	Bezeichnung	Colour outer sheath
EB515.7	Mains adapter CEE7/7 to IEC C13 90°, earthing contact plug - IEC socket	black

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
