DATASHEET

Keystone Snap-In Adapter USB2.0 A - B, black

General data

The Keystone panel-mount adapter USB 2.0 A to B from EFB-Elektronik is designed as a female/female solution with USB-A and USB-B. The black plastic housing supports compact integration into keystone applications and ensures a discreet appearance.

• USB-A and USB-B female/female – Allows for a clean connection between matching USB 2.0 components in a compact mounting solution.
• Black plastic housing – Blends inconspicuously into installations and offers a practical adapter design.
• Keystone panel-mount adapter USB 2.0 A to B – Fits into appropriate installation concepts and supports structured integration of interfaces.

The combination of USB-A and USB-B in female/female design creates a clear interface transition between two matching USB ports. The plastic housing in black offers an unobtrusive and functional design for installation in matching keystone solutions.

Technical details
• Brand: EFB-Elektronik
• Connector 1: USB-A
• Connector 2: USB-B
• Connector 1 gender: Socket
• Connector 2 gender: Socket

DATASHEET

Keystone Snap-In Adapter USB2.0 A - B, black

- Colour: black
- Housing material: plastic

Technical properties	
Connection 1	USB-A
Connection 2	USB-B
Connection type connection 1	jack
Connection type connection 2	jack
Dust cover	false
Type of housing	Plastic

Available variants

ArtNr.	Bezeichnung	Colour
EB534	Keystone Snap-In Adapter USB2.0 A - B, black	black

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
