DATASHEET

Network parallel pliers 14.2-28mm for assembling keystones+field connectors

General data

The network parallel pliers from EFB-Elektronik are designed as parallel pliers for RJ45 Keystone and offer a practical solution for the assembly of keystones and field plugs.

• Parallel Pliers for RJ45 Keystone – Enables targeted assembly in the RJ45-based network environment and precisely covers the intended application.
• Network parallel pliers for the assembly of keystones and field plugs – Bundles the area of application in a clearly described tool and facilitates assignment in everyday installation.
• EFB-Elektronik as a brand – Stands for a comprehensible manufacturer assignment and creates clarity in the technical selection.

In technical applications, the focus is on the specialized design. The variation group Network Parallel Pliers 14.2-28mm

DATASHEET

Network parallel pliers 14.2-28mm for assembling keysto-nes+field connectors

marks the classification in the range. Together with the design as a parallel pliers for RJ45 Keystone, this results in a tool for the assembly of keystones and field connectors in the network area.

Technical details
• Brand: EFB-Elektronik
• Form: Parallel pliers for RJ45 Keystone

Technical properties	
Suitable for BNC plug	False
Suitable for D-Sub plug	False
Suitable for F plug	False
Suitable for F-compression plug	False
Suitable for LC plug	False
Suitable for LSA plus	False
Suitable for MT-RJ plug	False
Suitable for RJ plug	False
Suitable for SC plug	False
Suitable for SMA plug	False
Suitable for ST plug	False
Suitable for low current connector	False
With cutting device	False
With interlock device	False
With strip function	False

Available variants

ArtNr.	Bezeichnung	Unique	Type
EHT-021	Network parallel pliers 14.2-28mm for assembling keystones+field connectors	Unique	Parallel pliers for RJ45 Keystone

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
