

DATASHEET

Network parallel pliers 14.2-28mm for assembling keystone+field connectors

General data

This tool can be used to quickly and easily connect a network cable to a keystone module or a field-assembled plug. There are two different openings for this, 14.2 and 28 mm. The parallel mechanism of this pliers allows plugs and modules to be pressed gently and safely.

Specification

- Suitable for all standard RJ45 keystones
- Metal pliers with plastic handles
- Easy to use
- Dimensions (LxWxH): approx. 178 x 52 x 19 mm

Technical properties

This datasheet was created automatically on 17-09-2026 . Technical changes reserved.

DATASHEET

Network parallel pliers 14.2-28mm for assembling keystone+field connectors

Suitable for BNC plug	False
Suitable for D-Sub plug	False
Suitable for F plug	False
Suitable for F-compression plug	False
Suitable for LC plug	False
Suitable for LSA plus	False
Suitable for MT-RJ plug	False
Suitable for RJ plug	False
Suitable for SC plug	False
Suitable for SMA plug	False
Suitable for ST plug	False
Suitable for low current connector	False
With cutting device	False
With interlock device	False
With strip function	False

Available variants

ArtNr.	Bezeichnung	Unique Type	
EHT-021	Network parallel pliers 14.2-28mm for assembling keystone+field connectors	Unique	Parallel pliers for RJ45 Keystone

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
