

DATASHEET

Power Cable Italy Type L - C5 180°, Black, 1.8 m, 3 x 0.75 mm²

General data

The power cable Italy type L - C5 180° black from EFB-Elektronik is designed as a 3-wire connection cable with a length of 1.8 m. It combines a straight Type L connection with a C5 cloverleaf coupling and thus offers a practical solution for compact power connections.

- 1.8 m length for flexible installations
- Black outer jacket color for unobtrusive integration
- 3-wire version with protective conductor

The polyvinyl chloride (PVC) jacket supports a robust and at the same time practical design for technical applications where a standard-compliant connection between type L and C5 is required. The combination of straight connection 1 and C5 cloverleaf coupling is designed for clear and secure contacting.
