Power Cable CEE7/7 90° - C13 180° Black 0.75 m, 3 x 0.75 mm²

General data

The power cable protective contact 90° - C13 180° from EFB-Elektronik is designed as a black connection cable for European use. With a right-angled safety plug (type F) and straight IEC socket, it is suitable for compact and standard-compliant power connections in various applications.

- Black outer jacket design for unobtrusive integration
- Connector 1 as a safety plug (type F) with 90° angulation
- Connection 2 as a straight IEC socket with 180° angulation

The design with three wires, PVC sheath and protective conductor supports a practical power supply for device connections with clearly defined mechanical guidance. The cable length of 0.75 m and the design for 250 V and 10 A make it a compact solution for applications where short, standard-compliant connections are paramount.
