DATASHEET

Power Cable Denmark DPin 90° - C13 180°, Black, 3.0 m, 3 x 1.00 mm²

General data

The power cable Denmark from EFB-Elektronik is designed as a practical connection solution with DK DPin 90° at one end and an IEC socket just at the other. With a black outer jacket and a length of 3.0 m, it is suitable for compact and standard-oriented installations in various technical applications.

- Power line for Denmark with DK DPin 90°
- IEC socket straight for direct device coupling
- 3.0 m length in black finish

The polyvinyl chloride (PVC) sheath supports a robust and at the same time suitable for everyday use for technical applications where a reliable power supply is required. The existing protective conductor complements the three-pole design and contributes to proper integration into existing systems.
