DATASHEET

Power Cable CEE7/7 90° - C5 90°, Black, 5.0 m, 3 x 0.75 mm²

General data

The three-pin power cable from EFB-Elektronik connects a right-angled safety plug (type F) with a C5 cloverleaf coupling. With a black outer sheath colour and a length of 5.0 m, it is designed for suitable cable routing in technical applications.

- Connector 1: Safety plug (type F), right-angled
- Port 2: C5 cloverleaf coupling

The three-wire design with protective conductor supports a reliable power supply in installations where a clearly defined grid connection is required. The polyvinyl chloride (PVC) sheath material complements the practical design of the cable and provides a technical solution with the usual use of materials.
