Extension Cable Dual Lock C14 - C13 IEC Lock, Blue, 1 m

General data

The Dual-Lock C14-C13 IEC extension in a blue version from EFB-Elektronik is designed for standard-compliant power connections in various applications. The design with IEC plug and straight IEC socket supports clean and practical integration into existing installations.

- Blue IEC extension in dual-lock design
- With IEC plug and straight IEC socket
- Cable length of 1.0 m for flexible connection solutions

The polyvinyl chloride (PVC) sheath ensures robust and at the same time practical cable routing. With three wires, protective conductors and a nominal voltage of up to 250 V and a nominal current of 10 A, the version is designed for typical mains connections and supports reliable energy transmission.
