Extension Cable Dual Lock C14 - C13 IEC Lock, Blue, 1,5 m

General data

The Dual-Lock C14 - C13 blue IEC extension from EFB-Elektronik is designed for a standard-compliant connection between the IEC plug and the straight IEC socket. With a length of 1.5 m and blue outer jacket colour, it is suitable for compact and clear installations in technical applications.

- Version with IEC plug and IEC socket straight
- 1.5 m cable length for flexible connection paths
- 3-wire structure with protective conductor and 10 A nominal current

The polyvinyl chloride (PVC) sheath supports a robust and practical cable design for IEC applications. The design for a nominal voltage of 250 V and the 3-wire structure with protective conductor ensure a technically clean connection within the corresponding systems.
