DATASHEET

Vertical Cable Comb for ESV 42U, 1 Piece, RAL9005

General data

The vertical cable comb from EFB-Elektronik is designed for orderly and clear cable routing in EFB server cabinet series. The tool-free, vertical mounting on the 19" profiles supports clean cable routing in cabinets with a width of 600 or 800 mm. The version combines steel with plastic and is finished in black RAL 9005.

• Structured cable routing over the entire cabinet height – At 42U, the cable comb is designed for continuous vertical organization of the cables.
• Tool-free mounting on the 19" profiles – The installation is designed for efficient installation in the server rack and supports cabinet widths of 600 and 800 mm.
• Robust design in black – steel and plastic combine stability with a powder-coated surface of the steel parts in RAL 9005.

The design is designed for practical use in professional server environments. The vertical mounting creates clear cable routing along the cabinet height. The combination of steel and plastic ensures a robust design. The powder-coated steel parts support a clean and resistant surface.
