DATASHEET

Cover plate RAL9010

General data

This cover plate from EFB-Elektronik in pure white is designed for the surface-mounted frame and for connection units of the TAE type. With its compact design, it combines a clear look with a functional design for surface-mounted installations.

• Cover plate in pure white for the surface-mounted frame – Ensures discreet and functional integration into the existing installation.
• TAE Type Connector Unit Design – Supports appropriate use in appropriate connection environments.
• Clamp mounting and compact dimensions of 79.8 mm x 79.8 mm x 5.33 mm – Allows secure mounting at low installation height.

Technically, the design is designed for a reduced front design and easy installation. Fastening is done by clamp fastening. With a width of 79.8 mm, a height of 79.8 mm and a depth of 5.33 mm, the cover plate remains flat and compact. The design without a labelling field keeps the surface clear and without additional elements.

DATASHEET

Cover plate RAL9010

Technical details
- Brand: EFB-Elektronik
- Connection unit: TAE
- Mounting type: surface-mounted
- Mounting type: clamp attachment
- Colour: white
- Labelling field: without label field
- Device width: 79.8 mm
- Device height: 79.8 mm
- Device depth: 5.33 mm

Technical properties	
Assembly arrangement	Surface-mounted frame
Connection unit	TAE
Design-compatible	No
Halogen free	No
Imprintable label	without indication field
Material	Plastic
Mounting method	Surface mounted (plaster)
Support ring	False
Temperature	0 - 60° °C
Type of fastening	mounting with claw
With dust cover	False
With hinged lid	False
With imprint	False

Available variants

ArtNr.	Bezeichnung	Colour	Depth of device	Height of device	RAL-number (similar)	Width of device	With buses/couplings
ET-25081	Cover plate RAL9010	white	5.33 mm	79.8 mm	9010	79.8 mm	False

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
