DATASHEET

Modular-Adapter D-Sub09 Plug / RJ45 Jack, metallized housing

General data

The modular adapter D-Sub plug / RJ45 socket from EFB-Elektronik is designed as a shielded modular adapter D-Sub09 male to RJ45 socket. With male/female design, straight design and desktop mounting, it is suitable for compact and clear integration into suitable applications.

• D-Sub09 Male to RJ45 Female – Enables direct conversion between both interfaces in a space-saving adapter solution.
• Category 3 shielded design – Supports less interference signal routing and clearly places the adapter in the appropriate transmission class.
• Straight design for desktop mounting – Facilitates positioning on the workstation and ensures clean integration in the intended application environment.

The shielded design supports controlled signal routing and reduces external interference. The combination of D-Sub09 and RJ45 as well as the classification in category 3 make the adapter a functional solution for structured connections in the desktop environment.

Technical details
• Brand: EFB-Elektronik
• Type: male/female
• Connector type: D-Sub09/RJ45
• Category: 3
• Mounting: Desktop
• Shielded: Yes
• Form: straight

Technical properties

Assembly	Desktop

DATASHEET

Modular-Adapter D-Sub09 Plug / RJ45 Jack, metallized housing

Category	3
Construction type	straight
Model	plug/jack
Temperature Range (Operation)	0 – 70 °C
Type of connector	D-Sub09/RJ45

Available variants

ArtNr.	Bezeichnung	screened
ETM23066	Modular-Adapter D-Sub09 Plug / RJ45 Jack, metallized housing	True

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
