DATASHEET

16-Port Gigabit Ethernet Switch

General data

GSW-1657 - GSW-2457 is a 16 - 24-port Gigabit Ethernet Switch that gives you a high-performance, low-cost, easy-to-use, seamless upgrade to boost your network to 1000Mbps. Increase the speed of your network backbone to a massive 48Gbps and bring lightning fast Gigabit connections to all your computers.
What happens when you have several users accessing multimedia applications all at the same time? No need to worry as GSW-1657 - GSW-2457 allows you to move large files faster and easier. Transfer your CGI, CAD, video, or other large multimedia files over the network instantly and without lag.

Standards-based
GSW-2457 features a non-blocking switching architecture that forwards and filters packets at full wire-speed for maximum throughput. With MAC address auto-learning and auto-aging, IEEE802.3x flow control for full-duplex mode and backpressure for half-duplex mode, you have powerful features sending your data throughout the network.

Technical properties

10 Gigabit Ethernet	False
Depth	180.0 mm
Ethernet	True
Fan	False
Fast Ethernet	True
Gigabit Ethernet	True

DATASHEET

16-Port Gigabit Ethernet Switch

Height	44.0 mm
Manageable	False
Manufacturer	LevelOne
Mounting method	482.6 mm (19 inch) mounting
Number of ports 10/100/1000 Mbps RJ45	16
Width	440.0 mm

Available variants

ArtNr.	Bezeichnung	Unique
GSW-1657	16-Port Gigabit Ethernet Switch	Unique

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
