DATASHEET

USB 3.0 Active Extension Cable, black, 5.0m

General data

- Extends and boosts the signal to any USB device - supports transfer rates up to 5 Gbps
- The built-in repeater helps maintain the USB 3.0 signal quality, electrical specifications and timing
- Extends the connection to external housings or other devices up to 5 m without any signal loss
- Plug and Play; Windows and Mac compatible - bus-powered so no external power supply required

General information

- Bandwidth: 5 Gbps
- Powered via Bus
- Supports all operating systems with USB

Contacts

- 1x USB 3.0 Standard A Male
- 1x USB 3.0 Standard A Female
- Nickel-plated
- Molded PVC

Cable

- Shielded
- Thermal plastic housing

Standards and Certifications

- USB 3.0
- EC
- FCC
- RoHS
- WEEE

DATASHEET

USB 3.0 Active Extension Cable, black, 5.0m

Package Contents

- 1x SuperSpeed USB 3.0 Active Extension Cable, 5 m

Technical properties	
Connection type connection 1	Plug
Connection type connection 2	jack
Number of poles connection 1	4
Number of poles connection 2	4
Type of connector connection 1	USB-A
Type of connector connection 2	USB-A

Available variants

ArtNr.	Bezeichnung	Colour	Length
ICUR3050	USB 3.0 Active Extension Cable, black, 5.0m	schwarz	5.0 m

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.

This datasheet was created automatically on 07-11-2026 . Technical changes reserved.
