

DATASHEET

Outdoor box IP54 black foldable lockable made of 88.6% recycled material

General data

EFB Electronics: Outdoor Box

□ IP54 protection class: Safe from splash water, rain, dust and insects

The EFB Electronics Outdoor Box offers comprehensive IP54 protection. Your electrical connections remain safely protected from splash water, rain, dust and even insects - ideal for outdoor use in all weather conditions!

□ Spacious interior for versatile applications

With dimensions of 32,24 x 12,9 x 10,5 cm and 5 practical cable entries, the waterproof cable box is the perfect solution for storing power strips, large adapters and timers. A versatile solution for use in the garden, terrace and more.

This datasheet was created automatically on 12-09-2026 . Technical changes reserved.

DATASHEET

Outdoor box IP54 black foldable lockable made of 88.6% recycled material

□ Housing made of 100% recycled PP, robust and with strain relief
 Seals made of TPE with high resilience, flexible even at low temperatures
 Sealing cord made of EPDM with high weather and UV resistance, also flexible in the cold like TPE
 Both sealing materials provide lasting elasticity for maximum sealing security.
 The box is made of 88.6% recycled material.
 Produced in the region / in Germany.

□ Easy to use, flexible installation and lockable security
 Safe and user-friendly: Place your connections in the box, secure the cable with the clamps and effortlessly attach the box to any wall. The flexible installation allows the box to be attached both horizontally and vertically. For additional protection, the box can be locked with a lock to prevent unauthorized access.

□ Versatile: For garden, Christmas and more
 Whether for lawn care, Christmas lights or pool pumps - the EFB Electronics outdoor box offers comprehensive protection for your electrical devices. An indispensable, waterproof solution for indoor and outdoor use!

Product description:

EFB Electronics waterproof outdoor cable box - reliable protection for your electrical connections

Secure your electrical connections outdoors with the robust and versatile EFB Electronics outdoor cable box. With IP54 protection class, it offers reliable protection against splash water, rain, dust and insects - ideal for the garden, terrace, camping and more.

Highlights at a glance:

IP54 protection class: Withstands the harshest weather conditions, reliably protects against dust, splash water and insects.

Large interior: With generous dimensions (32,24 x 12,9 x 10,5 cm), the box offers space for power strips, timers, large adapters and extension cables.

Durable and Regional: The box is produced in Germany and consists of 88.6% recycled material that withstands rain, snow, dirt, and temperatures down to -40 °C.

Flexible installation: Can be attached to walls both horizontally and vertically - for maximum adaptation to your requirements.

Lockable: Additional security thanks to the option of protecting the box from unauthorized access with a lock.

Built-in strain relief: Resistant cable clamps prevent tensile loads and protect your connections from damage.

Versatile applications

This datasheet was created automatically on 12-09-2026 . Technical changes reserved.

DATASHEET

Outdoor box IP54 black foldable lockable made of 88.6% recycled material

Perfect for a wide range of applications: from securing garden lighting and Christmas decorations to use with pool pumps, patio heaters and power tools. Whether in the garden, on the campsite or at celebrations - this box is an indispensable helper.

Safety and ease of use

The waterproof EFB Elektronik outdoor box is easy to use: simply place the connections in the box, secure the cables with the clamps and close the box. The possibility of wall mounting and the lockable design offer additional convenience and protection.

Technical properties

Degree of protection	IP54
Depth	201.5 mm
Height	114.5 mm
Rail mounting possible	False
Side-by-side housing	False
Type of enclosure	Closed
Wall mounting possible	True
Width	389.8 mm
With integrated PCB-mounting connection system	False
With screening	False
With ventilation slots	False

Available variants

ArtNr.	Bezeichnung	Colour	Material	With screening
ODB-1SW	Outdoor box IP54 black foldable lockable made of 88.6% recycled material	schwarz	Plastic	False

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
