DATASHEET

Cable Tray for PRO 42U, Grid

General data

The vertical mesh cable tray from EFB-Elektronik is designed for orderly cable routing in the cabinet and is attached to the lateral depth struts. It is intended for the PRO cabinet series and supports structured guidance of the cables in professional server cabinets. In 600 mm wide cabinets, the mesh tray fits between the depth strut and the side wall.

• Vertical cable routing with a clear structure – The cable tray is designed for routing in the cabinet and supports clean cable organization along the side areas.
• Mounting to the depth struts – Mounting to the side depth struts allows for practical integration into PRO cabinet environments.
• Space-saving and robust – With a width of 150 mm and a steel version, the cable tray is suitable for stable and space-conscious installation.

The design is designed for use in professional cabinet installations. As a cable tray design, the product relies on steel and thus on a robust material for vertical cable routing. The metallic colour blends in with technical environments. The scope of delivery includes the cable tray and the mounting material, which means that installation is prepared directly. The note on the fit in 600 mm wide cabinets specifies the installation situation and simplifies planning.

Technical details
• Brand: EFB-Elektronik
• Cabinet series: PRO
• Design: Cable tray

DATASHEET

Cable Tray for PRO 42U, Grid

- Width: 150 mm
- Colour: metallic
- Material: Steel
- Construction/use: For vertical cable routing in the cabinet
- Attachment: on the lateral depth struts
- Note: In 600 mm wide cabinets, the mesh gutter fits between the depth strut and the side wall
- Scope of delivery: 1 x cable tray, mounting material

Technical properties	
Cabinet Series	PRO
Material	Steel
Model	Cable trough
Packaging	Cardboard
Scope of delivery	1 x Cable trough, Mounting accessories
Structure/Use	For vertical cable management inside the cabinet. Attaches to the side depth supports. Note: In 600 mm wide cabinets, the cable tray fits between the depth support and the side panel.

Available variants

ArtNr.	Bezeichnung	Colour	Depth	Suitable for enclosure building height	Width	Height
PRO-KRI42G	Cable Tray for PRO 42U, Grid	metallisch	15 mm	40 - 42 U	150 mm	1800 mm

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.
