DATASHEET

Vertical Cable Management 42U, 1 Piece, RAL9005, for PRO

General data

The vertical cable management from EFB-Elektronik for the PRO cabinet series is designed for orderly cable routing on the side of the 19" level. Mounting is carried out on the lateral depth struts. A removable front cover with quick-release fastener supports quick access to the cable routing. For installation, it may be necessary to adjust the profile depth in the cabinet.

• Structured vertical cable routing in the rack – The cable tray routes cables on the sides of the 19" level and creates clear relationships in the cabinet.
• Service-friendly design – The removable front cover with quick-release fastener makes it easy to access and rework.
• Suitable for PRO environments – The version is intended for 800 mm wide enclosures and is available in black.

The design is designed for use in professional PRO installations. The structure on the lateral depth struts supports space-saving vertical guidance. With a width of 100 mm, the solution remains compact, while the steel material ensures a robust design. The scope of delivery includes the vertical cable duct, the cover and the mounting material. The colour is black with RAL 9005.

Technical details
• Brand: EFB-Elektronik
• Cabinet series: PRO

DATASHEET

Vertical Cable Management 42U, 1 Piece, RAL9005, for PRO

- Design: Cable tray
- Width: 100 mm
- Colour: black
- RAL number: 9005
- Material: Steel
- Suitable for housing width: 800 mm
- Construction/use: For vertical cable routing on the side of the 19" level
- Construction/use: Mounting on the lateral depth struts
- Construction/use: Removable front cover with quick release buckle
- Construction/use: Note: for installation, the profile depth in the cabinet may have to be adjusted
- Scope of delivery: 1 x vertical cable duct, cover, mounting material

Technical properties	
Cabinet Series	PRO
Material	Steel
Model	Cable trough
Packaging	Cardboard
Scope of delivery	1 x vertical Cable trough, Cover, Mounting accessories
Structure/Use	For vertical cable routing along the side of the 19" shelf. Mounts to the side depth struts. Removable front cover with quick-release fastener. Note: The profile depth in the cabinet may need to be adjusted for installation.

Available variants
