DATASHEET

Multimode-Fiber-Modul, Encircled Flux (1 pair) 850nm and 1300nm

General data

The fibre Optic Certification Set from Psiber Data GmbH for the fibre Optic Modules Variation Group for WX4500 is designed as a multimode fibre optic measurement module with Encircled Flux. It supports the targeted certification of fibre optic applications and is designed for practical integration into the WX4500.

• Accessories fibre Certification Kit for WX4500 – Adds a matching module to the measurement system for multimode fibre certification.
• Suitable for multimode fibre – Supports use in the relevant fibre type and enables clear alignment with corresponding measurement tasks.
• With PC/printer interface – Facilitates further processing and documentation of measurement results in technical practice.

Technically, the module is designed for fibre optics and is intended for multimode fibre types. The display is via LCD/monitor. A PC/printer interface is available. The suitability for network protocol measurement is not given.

Technical details
• Brand: Psiber Data GmbH
• Form: fibre Optic Certification Set Accessory
• Suitable for: fibre optics

This datasheet was created automatically on 01-11-2026 . Technical changes reserved.

DATASHEET

Multimode-Fiber-Modul, Encircled Flux (1 pair) 850nm and 1300nm

- Suitable for fibre type: Multimode
- Display type: LCD/Monitor
- With PC/printer interface: Yes

Technical properties	
Measured value memory	Nein
Operating Temperature	-10 – 60 °C
Suitable for network protocol measurement	Nein
Type of indication	LCD/monitor
With PC/printer interface	True

Available variants

ArtNr.	Bezeichnung	Model	Suitable for	Suitable for Fiber
WX_AD_EF_MM2	Multimode-Fiber-Modul, Encircled Flux (1 pair) 850nm and 1300nm	Accessories Fiber optic certification kit	Glass fibre	Multimode
WX_AD_SM2	WX4500 Singlemode-FO- measurement modul(1310nm and 1550nm)	Accessories Fiber optic certification kit	Glass fibre	Singlemode

Note on Intended Use

This data sheet is intended solely to describe the technical characteristics of the product. It does not replace an assessment of the product's suitability for a specific application. The user is responsible for ensuring that the product is used in accordance with its technical specifications and applicable legal and regulatory requirements.

This datasheet was created automatically on 01-11-2026 . Technical changes reserved.
